Meet iVENDA

The **iVENDA** Withdrawal Portal was built to give pharmaceutical organisations complete, compliant control over the removal of both digital and physical promotional materials from the marketplace. Flexible by functionality, **iVENDA** can operate autonomously or be seamlessly linked with systems like **Veeva Vault PromoMats (VVPM)**. The solution empowers you to import, manage, and withdraw materials with full transparency and traceability at every stage.

More than just software, **iVENDA** delivers a governance framework built for precision and accountability that the pharmaceutical sector requires.
